

Meningococcal disease  
can take the life of a child  
in just a single day

Preteens and teens  
at greater risk

## Giving Voice to Meningitis Prevention

Health officials  
recommend  
vaccination

**Carye Wynn**, Disease Survivor and Mother, Kathleen

"I was in the hospital for a month and on life support for 15 days. My surviving meningitis was a miracle."

**VOICES**  
OF MENINGITIS™

A Meningococcal Disease Prevention Campaign  
from the National Association of School Nurses  
In collaboration with sanofi pasteur

Meningococcal meningitis may  
be rare, but it's often devastating

Talk to your school nurse or health-care provider.  
Don't wait — get vaccinated!
